About The Event

- The Colorado Celebration of Women in Computing (CCWIC) is designed to promote diversity by offering opportunities for mentoring, networking, and technical/career development to women in computing. CCWIC is a regional meeting modeled after the highly successful international Grace Hopper Conference of Women in Computing.
- The 2nd CCWIC will be held November 4-5 at the Denver Marriot-West in Golden, CO.
 - Registration opens at 4:30pm on Thursday; the conference will finish by 3:30pm on Friday.
 - A detailed schedule can be found online at <http://toilers.mines.edu/ccwic10/program.php>
- Dr. Pamela Drew, distinguished CU alum who has followed an interesting career as executive at Boeing, Northrop Grumman, and TASC, will be the Keynote Speaker.

Ways You Can Participate

- Attend the conference
 - Submit a full paper or poster abstract for presentation (students only)
 - Submit a brief abstract for a 5-minute lightning talk
 - Submit any topic for group discussion (Birds of a Feather session)
- All submissions are due by Monday, September 27, 2010*

Why You Should Attend

- To explore topics such as careers, graduate study, work/life integration, etc.
 - To meet representatives from companies such as Microsoft, Google, and LGS Innovations.
 - To network and share experiences with leaders from academia, government, and industry.
 - To receive technical and career advice, as well as mentoring opportunities.
- 95% of the 152 attendees of the 1st CCWIC in 2008 were glad that they attended!*

Registration

	Through October 4 th	After October 4 th
Students	\$25	\$35
